MARCKS AND COMPANY'S
LADIES' AND GENTLEMEN'S
GOLD AND SILVER ALBERTS.

IN SUBMITTING a List of the above, we beg to intimate that we have a great many new and pretty lapped patterns, more particularly for Ladies, in which the bright cut facets sparkle like diamonds, producing a very rich and attractive effect. They are made as Ladies' Alberts, as Victorias or Leontines, rather longer, to droop loosely from the throat to the waist, generally ornamented with Globes and Knots, and as Guards, or full length chains thrown over the neck.
Gentlemen's Alberts are made both single and double of most patterns, in the double ones the bar is in the centre, and one end of the chain in each pocket.
All the undermentioned are made of either 15-Carat or 18-Carat Gold. Unless the quality desired is specially particularized in orders, 18-Carat Gold will be supplied.
NOTE.—Old Gold Chains will be taken in exchange and full market value allowed.

THE NEW
FIRE EXTINGUISHER.
THE HARDEN "STAR"
HAND GRENADE FIRE EXTINGUISHER,
PATENTED.
THE ORIGINAL AND ONLY PRACTICAL FIRE-EXTINGUISHING GRENADE.

Used in almost all the chief WAREHOUSES HOTELS, RAILWAY STATIONS MILLS, THEATRES, PUBLIC BUILDINGS, etc., throughout England and America

The Grenade consists of a glass flask filled with a chemical fluid, which is not affected by climate or age, AND IS PERFECTLY HARMLESS.
The Fire-extinguishing properties lie in gases, which are evolved when the liquid comes in contact with flame. The contents of the Grenade vaporize immediately when thrown on or into the fire, destroying the oxygen in the neighbourhood of the fire, and therefore

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas Rorke, London.

Specially valuable Pills for residents abroad and travellers.

TARAXACUM and PODOPHYLLIN—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia biliousness, and all symptoms of congestion of the liver which are generally pain beneath the shoulders, headache drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

LOCKYER'S SULPHUR HAIR-RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin.

LOCKYER'S SULPHUR HAIR-RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR-RESTORER.—No other hair-dressing is requisite. Large Bottles, 1s. 6d. Sold by Chemists, Hair-dressers and Perfumers in London, and throughout the world.

Lockyer's is equal to any of the high-priced preparations. Sold by TREACHER & Co.

SULPHOLINE LOTION.—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away even if it seems past cure. Ordinary pimples, blotches, scurf, roughness, vanish as if by magic ; whilst old, enduring skin disorders that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, nature condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d. Made by J. PEPPER and Co., London. Sold by TREACHER & Co.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spir

VESSELS ARRIVED.—The following vessel arrived on the 5th :—County of Dumfries, from Cardiff.

VESSELS SAILED.—The following vessels sailed on the 5th :—Belgravia (s), and Principality, for Liverpool; Sowfell (s), Marseilles; Westergate (s), Ghent; and Athabasca (s), Genoa. Yesterday :—Calder (s), for Busreh; and Sumatra (s), Jeddah.

ARRIVAL OF A NATIVE CHIEF.—H. H. the Nawab of Jinjeera, with twenty followers, arrived here on Friday by a ferry steamer. He is residing in a bungalow at Nepean Sea Road, Malabar Hill.

THE BOMBAY HOMŒOPATHIC CHARITABLE DISPENSARY.—The total attendance of patients treated in this institution during the month of May 1886 was 952, consisting of 386 males, 266 females, and 300 children, out of which 707 were Hindus, 241 Parsees, and 4 Mahomedans, the daily average being 30·709.

FIRE.—At about midnight on Friday, four cadjan huts, situated at Malet Road, caught fire, and burnt down within a short time. Two bullocks and seven goats that were secured in one of the huts were burnt to death. The origin of the fire is not known, and the damage is estimated at Rs. 250.

COMMITTED TO THE SESSIONS.—Abdool Raymon, a reputed thief, was on Saturday committed by Mr. Dosabhoy Framjee to take his trial at the next Criminal Sessions of the High Court, on a charge of stealing a purse containing 11 annas and 6 pies, the property of Mullarao Doolajee. There were nine previous convictions of theft registered against the accused.

CARRIAGE COLLISION.—On Friday noon, as Dr. Langley was driving in a brougham out of Medow Street, Fort, towards the General Post Office, his carriage was run into by Mr. Hayes' shigram. The fault is attributed Mr. Hayes' coachman, named Jairam Suntoo, who, it appears, was at the time driving on the wrong side of the road. Dr. Langley's horse was knocked down, and sustained some injury.

DEATH FROM NATURAL CAUSES.—A coroner's inquest was held on Saturday, at the House of Correction, on the body of Tookaram Ramjee, aged 26 years. Deceased was a prisoner in the jail undergoing a term of three years' rigorous imprisonment. On the 14th March last he was admitted into the jail hospital suffering from chronic Bright's disease, and died from its effects on Friday evening. A verdict in accordance with the facts was recorded.

THE following programme of music will be played by the band of H. M.'s 24th Regiment, at the Apollo Bunder, at 6 o'clock this evening, weather permitting :—

GOD SAVE THE QUEEN.

FATAL FALL FROM A BALCONY.—A coroner's inquest was held yesterday, at the J. J. Hospital, on the body of Kassum Jaffer, aged 6 years. Deceased, on Friday afternoon, while looking over the railing of a balcony on the second story of his house in Nishandapada Street, overbalanced and fell over on to the stone pavement immediately below, and sustained a fracture to the base of the skull. He was removed in an unconscious state to the hospital, and remained so up to the time of his death, which took place at 5 o'clock on Saturday evening. A verdict of accidental death was recorded.

THE ATTEMPTED MURDER.—Rutna Asha, a Sorathee servant in the employ of the Rev. Mr. Squires, was on Saturday brought up on remand and charged before Mr. Dosabhoy Framjee with having, on the 30th March last, attempted to murder his wife, named Nannee, by cutting her throat with a knife. Mr. Little, the Public Prosecutor, appeared to conduct the case for the prosecution. The circumstances of this case has already been reported, and the Magistrate, after recording the evidence for the prosecution, asked the prisoner if he had any things to say in his defence, when he stated that he was drunk at the time and was not aware what he was doing. He was then formally committed for trial to the next Criminal Sessions of the High Court.

THE CASE OF STABBING.—Narayen Sowlaram and Bhickoo Gunoo were on Saturday brought up on remand and charged before Mr. Dosabhoy Framjee, accused No. 1 with attempting to murder Yemua, woman, on the 14th March last by stabbing her with a knife, and accused No. 2 with abetting No. 1 in the commission of the said offence. Mr. Little, the Public Prosecutor, appeared to conduct the case for the prosecution, and Mr. [illegible] jana, barrister-at-law, appeared on behalf of the defence for the two accused. The circumstances of this case has already appeared in the columns of this paper. COMMERCIAL INTELLIGENCE

SATURDAY EVENING, JUNE 5.

CONSOLS in London yesterday were ⅛ higher at 100⅝, but the 3½ per cent. Indian Sterling Loan was ⅛ lower at 101, and a decline of ⅛ was noted in 4½ per cent. Rupee Paper.

In the London General Produce Markets no movement is advised. Reuter reports that at the London Skin Sales, Goat Skins were in good demand at an advance of ½d. to 1d. for Bombay, and 1d. per lb. for Madras qualities. Sheep Skins on the other haud were slow of sale with a decline of 1d. in Bombay, and 1d. to 2d. per lb. in Madras kinds.

Cotton maintains a wonderfully steady, even tare, the fluctuations being entirely confined to an occasional 1-32d. or 1-64d. advance or decline in futures, spot stuff remaining quite unchanged. In Liverpool yesterday the report was steady, sales 10,000 bales, including 500 Surats, forward deliveries being 1-32d. to 1-64d. lower, ready Cotton unaltered. To-day's market is advised as firm arrivals, firmer with sales of 10,000 bales, including 1,000 Surats, a large business for Saturday.

In New York yesterday an improvement of one point in futures was the only change, and to-day there is no move in prices recorded.

The alterations in the statistical position, of which we subjoin our usual weekly comparison, are again unimportant. The Liverpool stock has increased by 21,000 bales and it seems evident from the American export figures that supplies are now being attracted to that market in place of the Continent. This course of trade, if continued, will tend to prevent the Liverpool stock running down to a very low level in the Autumn as it otherwise promised to do; although the total visible supply is light, and having declined by 40,000 bales on the week, is only 20,000 above the corresponding date last year.

The American crop figures to date give the following comparisons with the two previous seasons:—

	1886.	1885.	1884.
Week's Receipts	23,000	4,000	13,000

" Stock in the Ports	508,000	427,000	462,000
Saturday's Receipts	5,000	1,100	1,000

The total visible supply of cotton for all Europe on the 4th inst., affords the following comparisons with the two previous years:—

	1886.	1885.	1884.

Respecting our local Cotton market there is very little new to report. The few export buyers in the market are merely operating to cover what they are still short by no means a large quantity in the aggregate, and their wants are mostly confined to Bhawnuggers. Westerns and Ginned Dharwar stocks are all in store now, and the season is daily drawing nearer a close, the receipts as well as the shipments showing signs of rapid contraction. The following are current prices:—

WHEAT is still arriving freely, and the market wears an easier look, the pressure to complete deliveries having materially diminished. At the same time the trade is by no means in a satisfactory state, and after the ante-monsoon business has come to an end, we look for exceedingly quiet and probably a limited trade. Prices are now quoted as follows:—

SEEDS are now being very sparingly dealt in, and prices are practically unchanged. Arrivals of produce for the 24 hours, ending at 6 p.m. yesterday, were as follows:—

"Having written this brief volume on 'Burma, After the Conquest,' the idea occurs to me that the chief excuse for the book is to be found in the circumstance that it fulfils, by accident, or fate, though not of set purpose, the office which the Provost Marshal's camera accomplished in placing on record the effect of the bullets on the dacoits executed at Mandalay. It brings into a focus the hopes and fears, the actions and the passions, in play during the interregnum in Burma, between the deposition of King Theebaw and the advent of Lord Dufferin, to pronounce the decree fixing the future of the country."—*Author's Preface.*

NOTICE TO CORRESPONDENTS.

THE last paragraph in our Poona letter of last Thursday ought not to have appeared. In the process of revision the usual means were taken for excluding it, and it was only by a "printer's error" of a peculiarly annoying kind that a paragraph which we should much have preferred should not see the light found its way into print.

The Bombay Gazette

MONDAY, JUNE 7, 1886.

PAPERS read before the Society of Arts on Indian Arts and Indian Art Manufactures are as plentiful as theories on the authorship of the letters of Junius on the still more frequently discussed topic of the authorship of Shakespear's plays. But when a paper on this subject coincides with the opening of an Exhibition of these same arts and manufactures, and when moreover the special purpose of its author is to treat Indian manufactures, "from a practical point of view," we regard the contribution as exceptional, and under certain circumstances we might welcome it as valuable. Mr. Baden Powell, in giving to the subject the benefit of a considerable Indian experience, evidently intended to help the interests of India at the South Kensington Exhibition, and if any considerable portion of those who will pay their shilling to pass into the "Colonies" in these summer months could be got to read his admirable account of so many of the art products of this country, the Exhibition would be the more profitable alike to those who visit it and to those who contribute to it. One manufacture which may develop into importance in India, is little likely to attract attention at the Exhibition, if, indeed, it is represented there; but it is the subject of an interesting digression in the early part of Mr. Baden Powell's discourse, and it promises to be of some local importance. Commenting upon the fact that in one or two places machine paper mills have been established in India, he observes that this form of manufacture constitutes one of the most hopeful enterprises of the future if one or two obstacles can be overcome, the chief of them being the excessive cost of bleaching material, owing to the objection of shipowners to carry it. The remedy for this must be sought for in the production of these chemicals in India, the impossibility of which, at all events, should not be taken for granted. In other respects the local circumstances are highly favourable. The Indian jungle is rich in material for paper making in bamboo shoots, and wild plants and barks, in one of which, the bark of *Broussonetia papyrifera*, Mr. Powell discovers the paper stuff of the future, which is to make the mills independent of espartero grass. Whether he is too sanguine or not, it is interesting to notice, at a time when the production of paper is being undertaken in Western India with all the advantages of the latest European appliances, that so shrewd an observer as he thus favourably estimates the future of the industry in India. When, however, he quits paper, Mr. Baden Powell descends to manufactures of a very interesting, and in the mass very valuable, kind, but not industries the improvement and development of which would be likely, for some time to come, to have any appreciable effect upon the wealth of the country. Apart from the cotton mills of the west and the jute mills of the east, the industries of India are almost entirely handicrafts, carried on on a small scale, with next to no resources in capital, and with only individual resources in regard to labour. As a rule, one pair of eyes and one pair of hands are concerned in the production of every article of Indian industry. The workers work side by side in amity, but nowhere is there co-operation, nowhere is there any capital beyond that of the individual workmen. It is easy enough to attribute to this "handicraft" character of the native manufactures of India the characteristic beauty and individual interest of the work. But there are economic results which Mr. Baden Powell has not noticed, and which do not tend entirely to the profit of the country.

It was a familiar story which the lecturer told when he described how the conservatism of the Indian handicrafts had been broken in upon by methods borrowed from Europe. The awful ailines have invaded the purity and strength of the dyes of the country, showing well on the trading returns, in which they now figure at an annual value of about a quarter of a million sterling, but showing badly in the "strivings of tawdry yellow with dirty red," the faded, jejune aspect of garments that would have been bright and pure in tone, but for the English dye-makers and their cheap and hasty aniline inventions. And with aniline dyes much else has come which grieves those who would be conservative of all the good things of Indian craftsmanship. Mr. Baden Powell has a sad tale to tell of skilled native furniture-makers who have bowed the knee to the *dii penates* of the Tottenham Court Road Pantheon, and no longer follow their own patterns and employ their own ornaments. Half the woodcuts in the catalogues of that great furniture mart are being reproduced for they English bungalow, with this, however, to distinguish the copies from the originals, that the workmanship gets worse and worse. Now this is very true and very interesting, but these little dissertations upon the influence of Tottenham Court Road upon Indian Cabinet Ware have no necessary place in a survey of "Indian manufactures from a practical point of view." It is mainly when the native workman, with no right guidance, stumbles along the by-paths of English design, that these woeful minglings of the bad things of Eastern and of Western Art are seen. A native cabinet maker, who has a Tottenham Court Road catalogue thrust into his hand, can scarcely help going wrong. But if Mr. Baden Powell inferred from his experience of the results of European misguidance that native craftsmen are best left to themselves, the inference may very fairly be challenged. There are whole branches of Indian art which can be rescued from puerility and worse, only by the guidance of European hands. Take, for instance, Cutch silver work, the bulk of which is in execution alone more crude, more careless, more reckless of form and finish than the easiest efforts of an English tinkers' apprentice. Or again, though one may carry in the memory happy exceptions, what is to become of these cotton prints of the Lahore district, with their wild pictorialisation of unthought of things, unless somebody from outside the native print room shall come and tell them that right drawing is of some importance in textile decoration, that it is as well that borders should fit at right angles, that patterns look none the better for being blurred or for running into one another? Mr. Baden Powell told the Society of Arts what Tottenham Court Road had done for furniture-making in India. He might, if he had been able to enrich his paper with reminisences of Bombay, have had something to tell about the result, in the same branch of art industry, of bringing the native hand under skilled European guidance and empolying the production of true and beautiful forms.

The most practical way, after all, of dealing with the question of Indian manufactures is to ascertain what part of them are likely to gain and hold a place in the European market. Those which have had a footing there merely for novelty's or oddity's sake ought scarcely to be included in the schedule. The English public are, for a time, amazingly tolerant even of ugliness and bad workmanship if only these are allied to the *bizarre*. But they have been somewhat laughed out of this by their more cynical neighbours, slaves to *bon gout*, who think no better of an ugly thing because it comes from the far East than they would of think of it if it came from their own village. For any permanent place that the products of the Indian handicrafts are to have in the English market they must so rely entirely upon their own merits of workmanship and design. People will not be persuaded by the fact that it is Cutch work to buy silver ware that might have been chased by a blacksmith with a horsenail. When Mr. Baden Powell says that only a little care is needed to obviate the defects in the work most frequently met with he takes a very cheerful view of the matter. It took a good deal of training and of very watchful supervision on the part of the masters in the Bombay School of Art to ensure that the native art workmanship exhibited in the carved stone capitals at the Bori Bunder Station should be sound work, free from suspicion of scamping, and there is a mass of so-called art workmanship in India which is in need of precisely the same severe but salutary discipline. The improvement of the quality of the work being a condition precedent to ensuring a place upon the market, some of Mr. Baden Powell's suggestions with the latter seem somewhat premature. We recognise the full the truth of all that he says as to commercial disqualifications under which peculiar habits of native craftsmen place their dilatoriness and their strange working without any regard to the ... ment of a reasonable remuneration ... labour. But this is of ... those constructive views Powell seems to have ... admitted that "rough ... parts is already ... goods of its kind." ... to regard this as an ... ential obstacle to ... the art prod...

IT is a colum... utmost possible work got out of our ... institution, which has led a contempora... urge that Bombay and Madras should fo... the example which the new Chief Justice at Calcutta has set by making the judges sit on Saturday. But we question if either in Bombay or in Madras this would be looked upon by those who know anything about the matter as a particularly effective way of increasing the working capacity of the Courts. It sounds plausible enough, no doubt, until it is made clear that Saturday is not necessarily a judge's holiday, because his court is closed, any more, for instance, than Sunday is a journalist's holiday. Some, at all events, of the puisne judges of Bombay and Madras might show a record of Saturday work which would satisfy even Sir Comer Petheram, though for the sake of our own Bench we hope none of them are so hardly pressed as their brethren in Madras, where we are again told, as we told a few years ago, that the judges have absolutely no leisure, and are obliged to occupy much of the vacation and all the holidays, including Sundays, in the endeavour to keep up with their work. This is a sad story, which ought to ensure to the Bench in Madras, at all events, a respite from importunate solicitations to give up their Saturday so-called holidays. There, as ... Bombay, the difficulties of the courts ... similar, and the real remedy is th... This is not the time to talk, as ... talked in Madras for some yea... addition to the number of ... good a case might be m... grounds of judicial co... suitors' interests, ... in present circumstances, a prevailing case would be made out against it on financial grounds and from the point of view of taxpayer's interest. The only remedy for any imaginable grievance that has a chance of ready acceptance in these days is the remedy that costs least money, and here the advantage that such a scheme of judicial reforms as that sent from Madras to the Supreme Government a few months ago —whereby the greater part of the business now done on the original side of the High Court would be transferred to the Small Causes Court —must have over one for an increase in the numerical strength of the Courts. It is in that direction that we have repeatedly urged that a remedy for the blocking of the Bombay Courts should be found. The resources of the High Court would be put to better uses if a large portion of the origiual jurisdiction now entrusted to it were transferred to the Small Causes Court, and its powers were concentrated upon the work most fitly pertaining to it.

A CORRESPONDENT who recently took a run in the North-West heard loud complaints about the way in which public money is wasted for economy's sake, not in public works but in the stoppage of public works. People complain, he tells us, of the disregard which is shown for clear necessities, and of the waste which attends the enforced idleness of a large and expensive permanent staff. It is patent at once that of all courses open for financial relief that taken is the most extravagant. The smallness of some of the grants that are made renders really useful work almost impossible, and under the circumstances it would have been better to have refused a vote except for wages and repairs. It is some consolation to us in Bombay to learn that we are not the only large municipality to whom the Supreme Government will not offer that cup of cold water a guarantee for a water works loan. Our correspondent tells us Delhi has had under consideration a new drainage and water scheme which is now ripe for execution. In 1868 the subject was first mooted, and after two schemes had been rejected, a third was passed. There is a clear balance in the Municipal Treasury of 4½ lakhs, and 12 lakhs more are wanted to enable the work to proceed. Government was asked to advance the money, the Municipality being prepared to pay 5 per cent. interest and mortgage their octroi duties and public buildings as security. The Government acknowledged the excellence of the security, but declined to help. Subsequently the Municipality applied to the Banks of Bombay and Bengal, and were politely bowed out, the prior action of Government having prejudiced their position. As a consequence nothing can be done unless local capital (which would be readily given) is utilised at 7 per cent., or the people of Delhi suffer the consequences of the failure to provide them with absolute sanitary necessities. The revenue is over a lakh and seventy thousand rupees.

A CORRESPONDENT writing from the Central Provinces recently ventured to recommend that terms should be offered to Tantia Bhil, the notorious dacoit, and that he should thus be brought over to the side of order. Our correspondent affirmed that Tantia had been guilty of murder, and that this was no doubt a strong reason why terms should not be allowed him, but we are now informed that from the official documents it does not appear that Tantia can be strictly accused of murder at all. THE RUBY MINES IN BURMA.

(FROM OUR OWN CORRESPONDENT.)

RANGOON, JUNE 6.

The Rangoon Gazette states that the Government of India have granted a concession for working the ruby mines in Upper Burma to an Englishman, backed by a strong French syndicate, with a sprinkling of English names. The lessee previously showed a document purporting to be a concession signed by the late Burmese Envoy in favor of the French syndicate, but the document was of a character which the Home Government could not recognize as a concession to the former lessees. It included the right to tax the mining inhabitants over an area about 50 miles, who claimed the right of working the mines and selling the stones to the lessees, and as the Royalty agreed upon exceeds thrice the former cost of the concessions, which cannot be recouped even with the aid of machinery without grinding down the inhabitants with taxes, or depriving them of their rights from time immemorial in mines, it was feared that quarrels and complications may arise leading to interference of the French Government, or intervention of the military at heavy cost. There appears less excuse for the Government granting this concession to a French corporation, as the offer of the English company was of undoubted standing

A COUNTER WITH DACOITS.

The news from the Thayetmyo frontier state that Lieutenant Churchill, of the Scots Fusiliers, attached to the Eastern Frontier Column under Major Law, having its head-quarters at Toungdwingyee, inflicted a severe defeat on a large body of rebels strongly entrenched in the vicinity of Toungdwingyee. Unfortunately Lieutenant Churchill was badly wounded. The particulars of the encounter has not yet been received.

COLONEL Ross left Simla on Wednesday last for Hyderabad.

THE Government of India have ordered inquiry to be made into the alleged misconduct of the new Punjabi police in Burma.

NEWS from Kabul, dated ten days ago, announced the Amir to be in good general health, though his gout was troublesome.

THE Boundary Commission is supposed to be now on the Oxus, but the actual news of their arrival there has not yet been received.

NEWS dated May the 7th, has been received from Colonel Lockhart, who had then passed safely over the Hindu Kush by way of the Kilik Pass.

NEWS from home reports Sir Charles MacGregor's safe arrival. The doctors take a less serious view of his case than the profession in India, but he is confined to his bed from weakness.

TWO committees, of each of which Colonel Lowis will be President, are likely to assemble before long at Simla, one to consider the equipment of the Sappers and Miners: the other on loading transport animals.

DHULEEP SINGH has formally declared his intention of leaving for England forthwith. The Maharaja was some days ago reinitiated into the Sikh brotherhood by one of his cousins and another Sikh priest who had arrived at Aden.

THE Maharaja Scindia, by the advice of his astrologers, left Gwalior at the end of last week on a pilgrimage to Bithoor. His Highness is very weak, but bore the journey well, and is not worse than before he left Gwalior.

COLONEL DE BOURBEL has been appointed to survey the several routes which may appear practicable for a railway into Cashmere, the Maharajah having expressed a desire that his State may be placed in direct communication with the Indian Railway system. At least four routes will have to be examined, it is stated; but the work is expected to be completed this season. Colonel de Bourbel's task will be to select the most favourable line, and submit an estimate of the cost of a railway by that route.

IN the Calcutta customs export list, a new departure in the wheat trade of India is chronicled, fifty tons of wheat having been passed out for Adelaide by the British India Company's steamer Rajputana, which is now loading for Australia. It will be a decided reversal of the old state of affairs if the Australian colonies should have to draw their wheat supplies from India.

SYUD AMEER HOOSEIN, Presidency Magistrate, Northern Division, Bengal, has been appointed a member of the Supreme Legislative Council, and the news will be received as a compliment by the entire Muhammadan community of Bengal. The Syud has been in the service of Government for the past twenty-five years, and was a member of the Bengal Legislative Council during the period 1878-80.

AT present the Supreme Legislative Council contain eleven additional members, including Rana Shankar Buksh Sing, the recently appointed member, and Raja Ameer Hossein. The India Councils Act, 1861, Sec. 10, provides for the appointment of not less than six and not more than ...ve additional members, so that Syed Ameer ...ein's appointment makes up the full number.

GENERAL MCQUEEN has been directed to take up the command of the Punjab Frontier Force forthwith. Brigadier-General Stewart, Madras Staff Corps, who has been appointed to succeed General McQueen in the command of the Hyderabad Contingent, will not come out from England till September; the officiating command being filled meantime by Colonel Way, the senior officer on the spot.

MR. R. D. OLDHAM, of the Geological Survey of India, thinks that coal may be found near the village of Bap in the Jessalmir portion of Western Rajputana. Hitherto, the prevailing impression has been that absolutely nothing worth having could come from that desert tract; but Mr. Oldham regards the prospect of finding coal as so promising, as to justify the expenditure of money on a systematic exploration, and he details the steps which have led him to this conclusion. These are of too purely scientific and technical a nature to be given here; but it is obvious that the whole of the Railway system of North-Western India would profit by the discovery of workable coal mines in this region.

MR. S. SULLEN, Presidency Post Master, Madras having been appointed to officiate temporarily as Post Master-General, Madras, in addition to his own duties, received charge of the latter office from Mr. M. Hammick, on the 13th ultimo. "It is rumoured," says the *Madras Mail*, "that a young civil servant in Bengal is to have the absurdly easy post that Mr. Hammick has vacated. We hope, however, that the Government of India will give the provisional arrangement a fair trial, for, if it succeeds—as we believe it will—the appointment of a useless Postmaster-General in Madras may be abolished, and a saving of Rs. 20,000 per annum may be effected, after having given Mr. Sullen a modest increase."

MR. C. A. LIDSTONE, of the Bengal Pilot Service, whose experience of the northern portion of the Bay of Bengal extends over a long series of years, has carefully noted the meteorological indications of cyclones in the Bay. On the outer edge of a cyclone Mr. Lidstone believes that the meteorological indications are of greater importance than the behaviour of the barometer. In his experience, the edge of a cyclone may be entered and the fall of the barometer be scarcely perceptible. Mr. Lidstone believes that there are three classes of cyclones in the Bay of Bengal. The first are formed south of the Andaman Islands, and strike the coast of Madras. The direction of the cyclones of this class is more westerly than that formed further north. A second class has its origin about the north of the Andaman Islands, and these cyclones have a course between northwest and north. They usually touch the coast between False Point and Chittagong. The cyclones which form between the Andaman Islands and the Mergui Archipelago appear to pass out through the Preparis channels, and, travelling north or north-west, recurring to the north or north-east, strike the coast south of Akyab. The cyclones which form about the north end of the Andamans and cross towards the Sunderbunds on the advance of the south-west monsoon invariably give barometric indications of their approach, and there are other meteorologic indications which foretell their approach. The theory is set forth in an interesting pamphlet, in which the subject of cyclones is discussed.

IT is several years now since coolie emigration from India to Reunion was suspended, and it is satisfactory to know that the condition of the coolies in the island is, on the whole, fairly promising. In the beginning of 1885 they numbered 40,517 souls, and a little less than half were employed on estates and factories, while the remainder were engaged as market gardeners, street hawkers, or domestic servants. The climate is well-suited to the Indian coolie. The mortality during the year 1884 amounted to 1,631 deaths, giving an average death-rate of 4·025 per cent. The relations existing between the coolies and their masters were fairly satisfactory. Out of 525 complaints made by the former, 480 were withdrawn, or amicably settled by the "Syndics" or Justices of the Peace. Six employers of labour who were found guilty of the charges brought against them were deprived of the right to engage immigrants by order of the Governor. The adoption of this course, it is hoped, will effectually put a stop to harsh treatment in the future.

THERE are still a number of orphans left by the famine in Mysore of six years ago, who are maintained in various local orphanages. The monthly allowance of one rupee each made by the late Chief Commissioner for five years came to an end in December last, and the managers of various institutions petitioned the Maharaja for a continuance of the allowance until such time as the orphans were either married or were able to obtain their own living. The Dewan has practically agreed to this request, and the allowance will continue payable until each orphan is 15 years of age. The allowance of Rs. 25 to each orphan girl at the time of her marriage, provided that she marries before leaving the orphanage, is also continued.

OUR correspondent at the "Colinderies," as the Indo-Colonial Exhibition is popularly known, writing by the last mail, says:—"The visitors during the first week of the Colonial and Indian Exhibition were over 150,000 in number, which is far in excess of the visitors in the same period at the Inventions. The courts are now all in perfect order, though packages of goods are still arriving in strings of vans. In the Indian pavilion at the entrance several other large models of the P. and O. ships have been placed in position, and particularly demanding attention are the Poona and Thetan in their gear as armed cruisers of the Government service. Yesterday, though a miserably wet-day, 12,000 people passed the Turnstiles."

RECENTLY a correspondent drew attention in these columns to the definition of the word "minor" in the Guardians and Wards Bill, namely, "a person who has not reached the age of majority according to the law to which he is subject." The correspondent pointed out that this definition was unsatisfactory, as there are many persons in India who do not own any law, or whose law is likely to be a question at issue, and suggested that a minor should be any person who has not attained the age of 18 years. The *Pioneer*, in commenting on this suggestion, says:—

Now this seems a very simple solution of the question, but it may not have been noticed that the Law Member, in introducing the Bill, took up this very point, and showed how troublesome a one it was, and how hazy the law was on the subject of majority in India—so hazy indeed that he suggested an amendment of the Majority Act itself as the only real and true remedy. To fix 18 as the age at which a minor enters man's estate is well enough in the case of natives of the country; but then the Guardians and Wards Act applies to Europeans also. Mr. Ilbert said the Majority Act of 1875 is confined in its application to "persons domiciled in British India"; and the consequence is that persons resident but not domiciled in the country are placed in a very curious position. If they are in a Regulation Province, they attain their majority at the age of 21, but "if they happen to be in a non-Regulation Province, it might be a question whether their age of majority is not governed by Act XIII. of 1874, which defines a minor as a person who has not completed the age of 18 years." Thus, as the example was amusingly enough put, a young subaltern stationed at Delhi would, by reason of the Punjab being a non-Regulation Province, be of age if he had passed the mystic limit of 18; but if he were subsequently quartered a few marches away at Meerut in the North-West, he would find he had lapsed into legal infancy! This state of things is, of course, absurd—we beg every lawyer's pardon for venturing to say anything *can* be absurd in law—and the sooner the Majority Act is amended, the simpler will be the application of other Acts, particularly the Contract and Guardians and Wards Acts, in neither of which is the age limit of a minor specified.

A RETURN showing the cost for a series of years of the tour expenses of the Government of India, in which is included the charge of the Simla exodus, was sent home last June to the Secretary of State, who had called for it on the motion of Mr. Gorst in the House of Commons. The return was accompanied by an explanatory note, in which the Government of India went fully into the subject. The correspondence is believed to have been presented in some form to Parliament, but it is not known here how much, if any portion, of the correspondence has been actually made available to the general public at home. In these circumstances, until such information is forthcoming, the Government in this country is debarred by the customary rule from publishing information on the subject. It may be mentioned, however, that enquiries made in connection with the return showed that the expenditure was much less than was anticipated.

THE London correspondent of the Allahabad paper telegraphs:—"It is probable that there will be a majority of twenty-five against the Government on the second reading of the Home Rule Bill. This change is mainly owing to a letter from Mr. Bright traversing Mr. Gladstone's contention that the Party are committed to the support of the Bill on the second reading. Mr. Bright points out that the Bill has only been altered in one clause, and that the value of the concessions promised to the Radicals is thereby destroyed. A general election is expected in July."

A BURMESE amazon, twenty years old, is reported to be leading a rebel party in the Tonghu district.

THE Mandalay correspondent of a Calcutta paper says that during the recent expedition against the Kachyens one man was wounded on our side and about twenty Kachyens have been killed and others wounded.

IT is said that Messrs. Spiers and Pond have paid £15,000 for the privilege of catering at the Colonial and Indian Exhibition.

COLONEL J. N. B. HEWITT, Bengal Staff Corps, employed as Superintendent of the Sudder Bazaar, Delhi, is about to retire from the service. Colonel Hewitt was engaged at the siege of Delhi during the Mutiny.

THE cry that has gone up over the armament of the Artillery has always been understood to refer to the kind and not to the quality of the weapons. The 7-pounder field gun might be obsolete, but at all events it was a very good gun of its sort people believed. How are we to account, then, for the story that one of the crack Mountain Batteries, when it arrived at Calcutta recently from its station in the Punjab on the way to service in Burma, was suddenly discovered to be unserviceable as to its guns; that the officer commanding declined to run the responsibility of taking them into the field; and, that after a great-to-do the Inspector-General of Ordnance and the Brigadier-General Commanding acquiesced in their condemnation. Whatever may be the explanation of these things, we believe the guns in question are now to be seen in the Arsenal at Fort William, the battery having sailed with a new equipment.

By the bringing of all the Military offices together at Simla in the new buildings, a scheme for minimising the various records by the adoption of one registration office, such as obtains in the case of the War Office and Horse Guards, has come under consideration. At present duplicate and triplicate records have often to be kept, which involves a large clerical staff; and inquiry at Simla is now being directed into the cost of the record branches of the various departments, to see if by a new plan such reductions can be made as will justify the formation of one registration office. General Chapman, Colonel Collett, Colonel Collen, and Major Robertson as a Committee are now making the preliminary inquiry. The main difficulty is that from Army Head-quarters camp offices only are taken to the plains in winter, but it seems likely that the Military Department will also only take camp offices in future, in which case all the offices could come under one roof in Calcutta, and a system of combined registration be consistently carried out.

A RIFE match between the Commander-in-Chief's Staff and the Simla Volunteers was shot off at Simla on Friday. The conditions were seven shots at 200 and 500 yards, and the scores as follows:—The Chief's team—Sir Frederick Roberts, 25 and 20; Colonel Pole-Carew, 29 and 25; Major Neville Chamberlain, 27 and 28; Captain Hamilton, 31 and 28; and Captain Hume, 31 and 28 totals, 143 and 129; grand total, 272. The Simla Volunteers.—Lieutenant Bean, 29 and 31; Captain Chanter, 28 and 31; Captain Craigie Halkett, 31 and 20; Major Leigh, 20 and 24; Lieutenant Lett, 30 and 29: totals, 147 and 135; grand total, 282. The Volunteers thus won by ten points.

IT is probable that Major St. Quintin, now on his way out from England, will complete his five years in the Remount Department instead of returning to his regiment, the 10th Hussars, as stated some time ago.

THE Income Tax has but limited application in an infantry regiment of Europeans, only the lieutenant-colonels and majors being liable to assessment, other officers in receipt of more than 500 rupees per mensem escaping the tax by the deduction of tentage. The following sums are held to be "tentage" and included in pay and allowances:—General officer, Rs. 400; brevet colonel and lieutenant-colonel, Rs. 200; lieutenant colonel not brevet colonel Rs. 150; major, Rs. 120, captain, Rs. 75; and lieutenant, Rs. 50. These sums are also held to be included in the relative rank of other officers.

TELEGRAPHIC WEATHER REPORT.

SIMLA, June 5.—The barometer has risen at Rawalpindi and most stations in the North-West Provinces and Bengal, except the eastern districts of Assam; also slightly in Burma. It is still falling elsewhere; quickly in Sind. The pressure is low in Upper Sind and south Punjab. Easterly winds have re-appeared at most stations in the Upper Provinces. The winds are westerly in Sind, Central Indian plateau, and the Peninsula, strengthening slowly on the Malabar Coast. Southerly winds prevail in Burma and Lower Bengal. Much cloud has appeared in parts of Upper India, but they are very dry, especially in the Punjab. The skies are thickly cloudy on the Malabar Coast, Burma, Lower Bengal, partially in Madras and the Central Provinces. The temperature has fallen quickly at False Point, Akyab, Rangoon, Bombay and Poona. It has risen generally elsewhere. Rainfall to-day:—Ratnagiri, 8½ inches; Karwar, Goa, Moulmein over 2 inches; Rangoon, Salem, Bombay and Mangalore, between 1 and 1½ inches. Previously, Moulmein, Karwar, and Calicut, 1 to 2 inches.

CRIME IN BOMBAY.

THE following Resolution of the Bombay Government has been issued:—

JUDICIAL DEPARTMENT.

Bombay Castle, 12th May 1886.

Letter from the Chief Presidency Magistrate, Bombay, No. 209, dated 17th March 1886, forwards statements A. to J. showing the estate of crime in the City of Bombay during the year 1885.

Resolution.—The total number of persons dealt with in the Criminal Courts was 41,469. The number last year was 37,495. The average for the last five years is 37,882. The increase this year is therefore somewhat marked. The number of offences reported similarly rose from 35,308 last year to 38,712 in that under review. A marked increase is apparent in the following classes of crime. Public nuisances were 6,641 against 3,629, offences against the person 10,435 against 8,838, and those against special laws 11,811 against 10,359. There was a considerable decrease in offences against the public peace—3,127 against 3,623, and in those against property—3,431 against 4,035.

2. There were 14 cases of culpable homicide (10 of which were murders) against 10 last year, and the same number the year before.

3. Though offences against property show the considerable decrease above indicated, the value of stolen property has unfortunately risen by about 50 per cent., from Rs. 1,52,100-7-11 last year, to Rs. 2,27,116-6-1¼ this. But the percentage recovered was 57, and this is greater than in either of the two preceding years, when it was 51 and 46 respectively.

4. The number of persons charged with cruelty to animals was still large—3,204 against 3,646 last year, and 3,290 the year before. It is satisfactory that out of so large a number only 9 escaped conviction.

5. There is again a satisfactory decrease in the number of persons charged with disorderly conduct in the public streets. The figures for the last three years are 42,153,620, and 3,194. The improvement noted last year as to drunkenness has not been maintained. The number of persons charged rose from 5,853 to 6,648. Government regret to notice that one-eighth of the whole number this year, and one-seventh last, were Europeans, Eurasians, and Native Christians. Most of the Europeans were seamen and soldiers.

6. The figures showing the proportion of convictions to persons charged are eminently satisfactory. The percentage in cases before the High Court was 82. It was 88 last year. In those before the Magistrates it was 34 against 93. In cases brought before the courts by the police the convictions were 98 per cent.,—a remarkably high and creditable figure. Last year too the police were very successful, securing convictions in 96 per cent. of their cases.

7. The following table extracted from paragraph 44 of the report summarises particulars of the nationalities of the offenders dealt with:—

Years.	Caste.	Europeans. Male.	Europeans. Female.	Indo-Britons and Native Christians. Male.	Indo-Britons and Native Christians. Female.	Hindus. Male.	Hindus. Female.	Mahomedans. Male.	Mahomedans. THACKER AND CO., LIMITED.

THE following is the report to be presented at the annual meeting of the shareholders of Thacker and Co., Limited, at the annual meeting next Friday:—

During the past year the company has had some difficulty to contend with in the continually declining exchange (the loss by which on the company's remittances has been Rs. 11,000 more than it would have been at the average exchange of the previous year) as well as in the general economy caused by the state of exchange and the now realized anticipation of an income-tax. The directors are glad to say, however, that the measures taken by the management have been so far successful that the business done, Rs. 3,26,000, shows a slight increase upon the year before, and the nett profit is as nearly as possible the same, Rs. 30,389-13-1. The Reserve Fund now standing at the round sum of Rs. 50,000 the directors propose, instead of adding to it this year, to carry forward the balance of profit to next year's account, which seems desirable in view of a further fall in exchange. The directors propose to give a bonus of Rs. 1,000 out of the profits to be divided amongst the assistants and clerks at the discretion of the manager, in recognition of their good services during the past year. The amount at credit of profit and loss is Rs. 30,389-13-1; which it is proposed to appropriate as under:—Dividend, 15 per cent., free of Income-Tax, Rs. 22,500; secretary's commission, Rs. 2,250; bonus to assistants and clerks, Rs. 1,000; balance to next year's account, Rs. 4,639-13-1—total, Rs. 30,389-13-1. The stock has been carefully re-valued, and as in former years a deduction of 10 per cent. made off the gross total for depreciation, the same deduction of 10 per cent. has also been made from the furniture account. A larger amount than usual of bad and doubtful debts has been written off the books, some of which, however, may possibly be recovered. Mr. Kemp having retired from the direction on leaving India, the directors appointed Dr. T. Blaney in his place, and Mr. Walker having also proceeded to England, Mr. Chalk was appointed to fill the vacancy. These appointments you will be asked to confirm. Mr. W. Richardson retires from the direction by rotation, but is eligible for re-election. The auditors, Mr. N. S. Symons and Mr. D. H. Wadia offer themselves for re-election.

attempts to claim his acquaintance on the score of having known him in the Saharunpore Police—all these manœuvres being arranged with a view to getting a look at his criminal countenance. If he had not been so intensely indignant, I fancy he would have laughed at their transparent pretences. About half way up it struck him, with the agony of despair, that in his carpet-bag were certain trifles of jewellery which, in the event of a search, would, by the heated imagination of the Railway Police, be at once taken for a portion of the loot, in which case he would certainly have spent some very unpleasant hours in the lock-up before help arrived. At Amritsar they fell upon him, and wished to arrest him; whereupon quoth an intelligent station official "Oh! this is Mr.——Examiner of Accounts" (naming another gentleman who bore not the faintest likeness to the suspected robber), and on the strength of this second mistake, they let him go. Then said he gleefully to the guard:—"I'm no more Mr.——than you are." Presumably the guard must have wired ahead to Lahore on this; for at Lahore station, they took the number of his *ticca-gharri*, and he reached his family calling for the heads of all the Railway Police in a bucket. The crowning beauty of the story was that from the very beginning he knew who they mistook him for, and, had he really been the Professor, might have avoided their attentions with ease. Being a simple first-class passenger, tortured with the knowledge of the contents of his carpet bag, he had to sit still and be laboriously detected after the fashion of the police of Upper India, who might really take the trouble to recognise old residents of Lahore on their travels."

THE TRANS-CASPIAN RAILWAY.

GENERAL TCHERNAYEFF, one of the great Central Asian Commanders, has written to the *Novoe Vremya* of the 12th April a letter about the Trans-Caspian Line, which he calls the "Academical Railway." The following is an extract from his letter:—

"(1). The accounts of the opening of new stations from time to time make the public think that, in place of travelling on camels across the thirsty sands, they will ride comfortably in first class carriages to Tashkend, and that by the completion of the line we shall get such a hold on Central Asia, that, from being ungracious enemies, the English will be turned into submissive allies.

(2). Once, when meeting the late General Skobeleff, I asked him why he permitted the construction of the line which could be of no possible use to the Akhal-Tekke expedition. He admitted that the expedition would be over long before the Line could be ready, and so it turned out; for the expedition was over in January 1881, and the first section to Kizil Arvat was only opened in the autumn of the same year. He added it would be useful for other purposes.

(3). To justify the construction of a line which proved so useless for the expedition, and cost so much, the War Ministry determined to continue it, without previously reconnoitring the direction it should take. The consequence is, that it has been laid through moving sands which frequently compel the local inhabitants to change their residences, when their villages become too much banked up and buried.

(4). The whole country from Caspian to the Sir ...ya is a sandy desert. The Oxus divides this strip ...o equal parts which contain the three cases of ...erv, and Bokhara. The latter strip has to ...ainst the sands which are encroaching ...north-west.

... as the Trans-Caspian line was con... locality, sandy and waterless, but, ... the sands surrounding Merv, ...red feasible; but when ... a desert of moving ...sightedness of our ...came apparent. ...nemies have ...nding our ...iven the ...of the ...sions ...our must always be better than a road. We doubt much the invincibility of the sands which are mentioned Experience on the finished portion shews that they are not more dangerous than heavy snow storms. Possibly the sands between Merv and the Oxus may prove difficult customers, but once the line is constructed the Engineers will find some means of securing it from sand storms. We have often allowed that the commercial value of the line is insignificant for the present; but we never contradicted its great military importance as far as Kaakha; if however, military objects oblige its continuance to the banks of the Oxus, through Merv, perhaps it would be wiser to make a line of a lighter and more inexpensive description. As regards its prolongation to Turkestan, we fully agree with the General's views that there is no urgent necessity for the measure. If money is available it would be far better to spend it in the extension of the Siberian line which connects with European Russia the vast primitive population of Siberia, whom the War Department will be then able to rapidly transport when called in to the colours."

THOUSANDS OF TESTIMONIALS FROM ALL PARTS
Read the following:—

"North-street, Audenshaw (near Manchester),
"January 10, 1882.

"It affords me great pleasure to add my testimony to the wonderful effects of your Blood Mixture, which has cured me of a very bad ulcerated foot and ankle. I had four wounds which prevented me following my occupation for four years, during which time I have been in five different infirmaries and under fifteen different doctors. I was at last induced to try your Blood Mixture, and after taking three small bottles I was able to go to work, and by the time I had taken nine or ten bottles I was completely cured. Make whatever use you like of this, for the benefit of other sufferers.—I am, yours respectfully, "JOHN WILLIAMS."

Sold in Bottles 2s. 9d. each, and in cases containing six times the quantity, 11s. each—sufficient to effect a permanent cure in the great majority of long standing cases. By ALL CHEMISTS and PATENT MEDICINE VENDORS throughout the world.

GANDY'S AMERICAN COTTON BELTING

TO those having the use and care of machinery it is of the greatest importance to know what is the best belting to use to transmit power To such and to all the answer is, USE THE GANDY BELT.

It has imitators, and this is the strongest proof possible, that is an article that is worth spending cash on to imitate. If it were a worthless article, or one that had not been VERY SUCCESSFUL, no one would go to the expense and trouble to imitate it. Imitation is the strongest form of flattery, and those who imitate the "GANDY" belt are proclaiming to all belt users, that the GANDY belt is the best that has ever been put before the public.

The GANDY belt has acquired such a deservedly high reputation, that belt users, after having tried all others, come back to Gand and declare that, notwithstanding the difference in price, they find it to their advantage to the American Cotton Belt made, only by the inventor and patentee.

GRIMAULT'S SYRUP OF HYPO-PHOSPHITE OF LIME

FOR DISEASES OF THE CHEST.

ALL suffering from CATARRH, CONSUMPTION, OBSTINATE COUGHS or COLDS, and those affected with diseases of the CHEST, LUNGS, and BRONCHIAL TUBES should take

GRIMAULT'S SYRUP OF HYPO-PHOSPHITE OF LIME.

Prescribed by the leading medical authorities in all countries for the last twenty-five years with the greatest success, it continues to retain its reputation where all other medicines have failed.
GRIMAULT'S SYRUP immediately arrests the Cough, and Nightsweats, and the Appetite improves rapidly—a fact soon demonstrated by an increase of weight and healthy appearance.
GRIMAULT'S SYRUP is a rose colour, and is sold in flat, oval bottles. BEWARE OF IMITATIONS.

GRIMAULT'S MATICO CAPSULES AND INJECTION.

Renowned Physicians prescribe GRIMAULT'S MATICO as the most active and at the same time the most inoffensive remedy in the treatment of ACUTE AND CHRONIC DISCHARGES. These CAPSULES, unlike COPAIBA, have not the inconvenience of producing NAUSEA. The Injection is used in recent, and the Capsules in the more chronic cases.

ASTHMA! ASTHMA!
GRIMAULT'S INDIAN CIGARETTES.

ASTHMA, NERVOUS COUGHS, CHRONIC LARYNGITIS HOARSENESS, LOSS OF VOICE, FACIAL NEURALGIA, an INSOMNIA, are rapidly relieved by using these Cigarettes.

DUSART'S SYRUP & WINE OF LACTOPHOSPHATE OF LIME.

They enrich the blood, and strengthen and restore the vital energies. Phosphate of Lime is the substance most necessary to our existence, and is indispensable for the formation of the bony and muscular system. When the body lacks the proper amount of Phosphate of Lime it gradually wastes away, and as soon as such symptoms are observed Dusart's Syrup (which is the natural restorer) should at once be taken.
DUSART'S SYRUP and WINE of inestimable benefit to CONVALESCENTS, OLD or WEAKLY PEOPLE; and RICKETY CHILDREN find in them the calcareous elements required for the solidification of the bones.
DUSART'S SYRUP and WINE are the best TONIC for LYMPHATIC subjects, and all suffering from DEBILITY, POORNESS of BLOOD and the EXCESSES of YOUTH. DUSART'S SYRUP arrests DIARRHŒA IN CHILDREN, and is well adapted to MOTHERS while SUCKLING and during PREGNANCY.

CHAPOTEAUT'S WINE OF PEPSIC-PEPTONE TONIC, DIGESTIVE, AND NUTRITIVE.

CHAPOTEAUT'S WINE nourishes and sustains the Sick and Convalescent, without fatiguing the stomach by the process of digestion; and is far superior to Bee Teas Jellies, and Meat Extracts which cannot nourish the body if the digestive organs are weakened.
This delicious Tonic Wine contains active PEPSINE and PEPTONE or "*perfectly digested meat*," ready for immediate assimilation with the blood.
The reconstituent properties of CHAPOTEAUT'S PEPTONE WINE are acknowledged in the London and Paris Hospitals; where it is largely used for all affections of the STOMACH, LIVER, and INTESTINES, and for INDIGESTION, DISTASTE FOR FOOD, ANÆMIA, CONSUMPTION, DIABETES, DYSENTERY, FEVERS; in extreme weakness and exhaustion arising from TUMOURS, CANCEROUS AFFECTIONS, and all wasting diseases, wherever an extra amount of nourishment is required.
CHAPOTEAUT'S PEPSIC-PEPTONE WINE cannot be too highly recommended as a TONIC STIMULANT and RESTORATIVE to the AGED, DELICATE FEMALES, Lymphatic and Subjects children, and to increase the quantity and richness of the milk while suckling.

CHAPOTEAUT'S PEPSINE 275 PEARLS.

(Dialysed Pepsine.)

These Soluble Pearls contain in each, 4 grains of pure (sheep) Pepsine capable of digesting 150 times its weight of meat.
INDIGESTION, WIND ON THE STOMACH, FEELING OF HEAVINESS, SICKNESS, LOSS OF APPETITE AND HEADACHES ARE CURED with the first dose of CHAPOTEAUT'S PEPSINE PEARLS.

CHAPOTEAUT'S MORRHUOL.

The ACTIVE CURATIVE PRINCIPLES extracted from 25 times their weight of
COD-LIVER OIL.

The Paris Medica Tribune hotel published the discovery by Mr. Chapoteaut of Morrhuol, the curative and active principles isolated from the oily and indigestible part of Cod Liver Oil.
CHAPOTEAUT'S MORRHUOL is contained in small soluble capsules, each of which represents twenty-five times its weight, or more than a teaspoonful of Cod-Liver Oil.
From the experiments made in the hospitals, it has been proved that MORRHUOL is more efficacious than Cod-Liver Oil, and that BRONCHITIS, COUGHS, NIGHT-SWEATS, PAINS IN THE CHEST, AND CONSUMPTION, yield to its influence; after the first few doses the sleep becomes sound and the appetite returns, which at once indicates an amelioration.
PALE, WEAKLY CHILDREN with NO APPETITE, and those inclined to be RICKETY or afflicted with SCABS, RUNNING SORES ON THE NECK AND FROM THE NOSE AND EARS, and who are continually SLEEPLESS and RESTLESS, find in MORRHUOL the curative and calming properties which these affections require, and an increased appetite and healthy appearance soon prove the truly wonderful effects of this remedy.
P. CHAPOTEAUT, CHEMIST, PARIS.

PELLETIER'S QUININE CAPSULES

Pelletier.

These capsules contain 2 grains each of PURE PELLETIER'S QUININE in its unaltered state; they are soft and unlike other capsules are immediately soluble in the stomach, thus affording prompt relief in INTERMITTENT FEVERS, AGUE, MALARIA, AND FEVERS of a PUTRID or TYPHOID character NEURALGIA, HEADACHES, and RHEUMATISM.
Each capsule bears the name "Pelletier," which is the best guarantee of purity.

PHOSPHORUS THE GREAT REMEDY

FOR DISORDERS OF
THE NERVOUS SYSTEM.

IT is agreed by all Medical authorities that PHOSPHORUS plays a very important part in the NUTRITION of THE BRAIN and NERVE TISSUE, and possesses SPECIAL CURATIVE VITALIZING and ENERGIZING PROPERTIES.
In OVER BRAIN WORK, MELANCHOLIA, EPILEPSY, HYSTERIA, NEURALGIA, LOSS of NERVE POWER, and other Manifestations of
NERVOUS EXHAUSTION
PHOPHORUS IS INVALUABLE.
DR. WOOD says: "PHOSPHORUS in NERVOUS EXHAUSTION whether involving the cerebral or special centres is of GREAT VALUE. I have seen marked benefit from its use when the symptoms were not severe enough to indicate *organic lesion*, but the most remarkable results have been in cases in which the structure of the centre was apparently deeply indicated. In threatened BRAIN SOFTENING it is the ONLY drug that can ARREST THE DISEASE. In NEURALGIA its use is commended by reason as well as by experience and gives SPEEDY RELIEF."
DR. PARRIRA says: "PHOSPHORUS excites the nervous vascular and secretory organs, increases the fullness and frequency of the pulse and heightens mental activity and muscular power.

H. AND T. KIRBY & CO.'S
PREPARATIONS OF PHOSPHORUS

are made according to Dr. Kirby's Formulæ, and it is admitted that in NO OTHER FORMS can PHOSPHORUS be administered so *safely* or *effectually*, Syrups and all liquid Preparations being either INERT or DANGEROUS. The following combinations are largely prescribed:—

IN NERVOUS DEBILITY, SCIATICA
AND NEURALGIA PHOSPHORUS
AND QUININE PILLS GIVE
SPEEDY RELIEF.

This valuable combination of two powerful tonics is a very useful restorative, and is found most beneficial in the treatment of diseases of a low type in CONVALESCENCE from FEVERS and other acute exhausting diseases. As a tonic and antiperiodic it is largely used in India in some stages of fevers and to counteract the exhausting influence of the excessive heat of the climate.

IN LOSS OF NERVE POWER
PHOSPHORUS, IRON, QUININE &
STRYCHNIA PILLS ARE INVALUABLE,

as also in all cases of MALNUTRITION, whether the consequence of acute diseases such as FEVERS, BLOOD POISONING or result of OVERWORK, DISSIPATION, Indulgence in ALCOHOLIC STIMULANTS or excess of any kind, and in cases of WAKEFULNESS, FEEBLENESS of MEMORY, GIDDINESS and TREMBLING of the VOLUNTARY MUSCLES on EXERTION and some forms of SKIN DISEASE.

EARLY DECAY OF MENTAL VIGOR
AND PREMATURE OLD AGE.

LOWNESS of SPIRITS and ATONIC DYSPEPSIA arising from OVERWORK and IMPOTENCE IN OLD or DEBILITATED SUBJECTS, are much alleviated by a course of
PHOSPHORUS and NUX VOMICA PILLS.
IN BRIGHT'S DISEASE,

after the acute symptoms have subsided, PHOSPHORUS and CANTHARIDES PILLS act very beneficially, as also in ATONY or PARALYSIS OF THE BLADDER producing INCONTINENCE of URINE.
The above mentioned preparations are largely prescribed, together with other combinations described in Dr. Kirby's Work on the REMEDIAL VALUE of PHOSPHORUS, which may be obtained from any of the Agents mentioned below.

CAUTION—Messrs. H. & T. Kirby & Co. caution the medical profession and public against imitations of their preparations. Some are Exceedingly Dangerous and others Inert. Every Bottle of the Genuine Pills bears their Trade Mark. Sold in Bottles, price Rs. 2, Rs. 3-8 and Rs. 6-8 each. The large Bottles contain sufficient for a course of Phosphorus extending over 3 to 6 weeks.

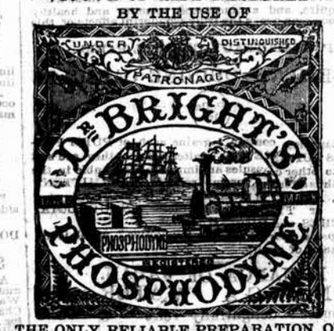
HEALTH, STRENGTH AND THE VIGOUR OF LIFE RESTORED

BY THE USE OF



THE ONLY RELIABLE PREPARATION OF PHOSPHORUS.

This Phosphatic combination is pronounced by the most eminent members of the Medical Profession to be the most efficacious medicine hitherto discovered for the speedy and permanent cure of—

Nervous Prostration, Liver Complaints, Female Complaints, General Debility, Indigestion, Flatulence, Sick Headache, Lassitude, Loss of Energy and Appetite, Mental and Physical Depression, Consumption (in its first Stages only), Nervous Debility in all its Stages, Premature Decline, Nervous Fancies, Eruptions of the Skin, Palpitation of the Heart, Impoverished Blood.

And all morbid conditions of the system arising from whatever cause.

DR. BRIGHT'S PHOSPHODYNE

Is unequalled for its power in replenishing the vitality of the body, by its supplying all the essential constituents of the blood and nerve substance, and for developing all the powers and functions of the system to the highest degree, therefore, a marvellous medicine for renovating impaired and broken-down constitutions. It quickly improves the functions of assimilation to such a degree that where for years an emaciated, anxious, and semi-vital condition has existed, the Flesh will rapidly increase in quantity and firmness, and the whole system return to a state of robust health.

DR. BRIGHT'S PHOSPHODYNE.

The ONLY medicine of that name granted certificates by Her Majesty's Registrar of Trade Marks. Beware of counterfeit Phosphodynes and cheap imitations bearing similar names.

☞ CAUTION.—The indubitable proof of the great value of DR. BRIGHT'S (THE ONLY GENUINE) PHOSPHODYNE is the various worthless Imitations which are being made up with a view to deceive the public. Therefore ask for DR. BRIGHT'S PHOSPHODYNE, and refuse Useless and Possibly Dangerous Substitutes.

DR. BRIGHT'S PHOSPHODYNE

Finest Old Irish Whisky MATURED BY Treacher & Comp.y LIMITED. Bombay, Byculla and Poona.

OLD IRISH WHISKY.

The immense success which has attended the introduction of their unrivalled blend of SCOTCH WHISKY (Old Glenlivet) has induced TREACHER & Co. to apply their long and practical knowledge of this branch of the Company's business to the production of a blend of the finest IRISH WHISKY which would meet with the approval of consumers of the article.

After lengthened experiments with the finest matured Spirits from the best known Distilleries in Ireland, the Management have succeeded in producing a blend which they confidently assert to be unequalled by any other offering in India.

It is a well-known fact that a large portion of the Whisky offered as Irish is known to the trade as "silent spirit," which is commonly distilled from refuse, such as spoiled grain, rotten potatoes, and other abominations.

TREACHER and Co. guarantee that this blend is made from pure Malt Spirit only, distilled from the finest grain or malt; is pure, mild, and agreeable, and entirely free from essential oils and other impurities.
